Music

AT THE INSPIRE MULTI ACADEMY TRUST WE BELIEVE IN EXPOSING CHILDREN TO THE POWER OF MUSIC THROUGH LISTENING, SINGING, COMPOSING AND PERFORMING. MUSIC AT TIMAT ALLOWS CHILDREN TO CONNECT WITH THE EVER-CHANGING WORLD TO UNDERSTAND THE JOY THAT MUSIC CAN BRING THROUGH A RANGE OF EXPERIENCES.

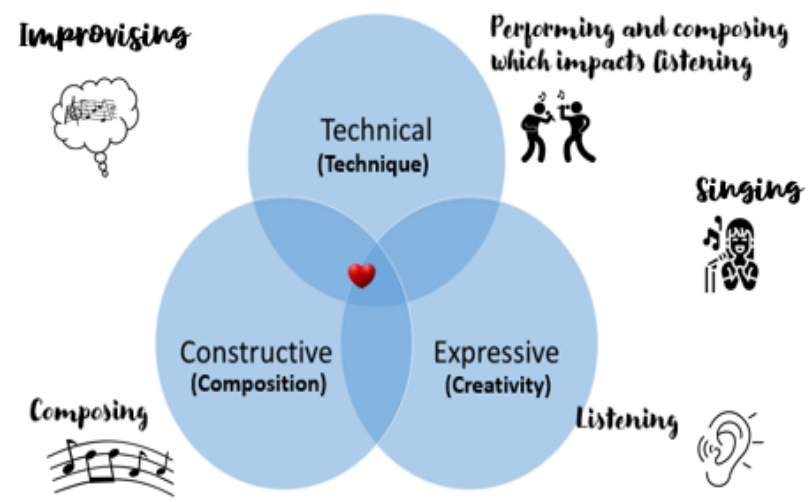

PILLARS OF PROGRESSION

Our music curriculum is centred within the three pillars of progression: **technical, expressive** and **constructive**. The three pillars coincide with the Music Model Curriculum sequence of learning: singing, listening, composing and performing which develop our children's musicianship. Here at TIMAT we teach the technique (technical) of singing to encourage the children's performing, composing and listening ability. We encourage creativity (expressive) through understanding the history, culture and social context surrounding music. The composition (constructive) of music is then taught by applying the technique and creativity together to encourage further composition of music.

CLEARLY STRUCTURED LEARNING

MUSICAL KNOWLEDGE

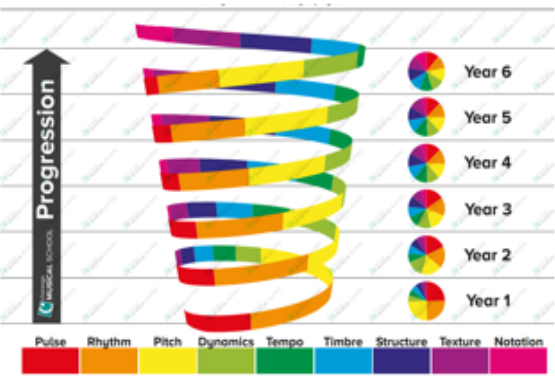

The procedural knowledge taught at TIMAT is concerned with 'the know-how of music' for example, how to play an instrument. Therefore, the procedural knowledge is carefully constructed to ensure it does not result in a cognitive overload. Charanga is used as a resource to help deliver high quality lessons which ensures lessons are incrementally taught to reduce the cognitive overload. A spiral approach is used to teach the procedural knowledge to allow the children to then ascertain the declarative knowledge of notations, keys, chords, works and songs. The lessons are not repetitive in what they do but rather builds upon learning and always come back to previously taught concepts (spaced out encounters).

EYFS

In the Early Years Music is a key driver of delivering the curriculum. Singing of songs and nursery rhymes are used to encourage and develop the children's musicianship. Not only do they develop their speech and language, but their understanding of pitch and rhythm takes place.

VOCABULARY

At TIMAT, children are exposed to the music vocabulary right from Year 1. The image below illustrates the progression of the vocabulary throughout each year. Children within the EYFS are also taught the vocabulary through a range of musical experiences.

KEY STAGE ONE

In KS1 children now begin to develop those fundamental concepts of; listening and appraising songs while discussing the history and cultural capital of a song, understanding how to use their voice expressively and making connections of notation when reading music. Children also have the chance to play tuned and untuned instruments.

KEY STAGE TWO

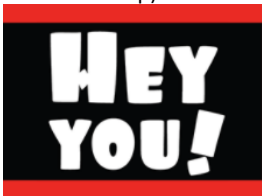

In KS2 children now begin to refine their skill at the fundamental concepts. They still listen and appraise a song, but the cultural capital is explored further. They are taught how to sing with accuracy and expression. They continue to play tuned and untuned instruments, but they move from a standard notation grid to notation charts in upper KS2. Children then begin to ascertain more of an ability to play by ear and improve their musicianship in improving and composing.

- At TIMAT we have two choirs which are run as an extracurricular club. The children practise a repertoire of music which they then perform at a range of concerts in front of public audiences.
- We also have a specialist teacher who teaches a string orchestra to children in KS2. This is through our partnership with the Plymouth Music Education Hub. Class teachers who are not specialist music teachers, will take part in these lessons to ensure they are upskilled.
- During our Whole Class Reading lessons, children have opportunities to read about different types of composers or types of music. Sometimes, we sing the song in the lesson and explore the meaning of the vocabulary behind it.
